## Skills

C#

C/C++

Git

Linux

SQL

Java

JavaScript

Golang

LaTeX

## Languages

Russian

English

## Profile

A student of the 2nd year of the ITMO bachelor's degree, on the basis of normal academic performance and good soft skills, transferred after the first year to a complicated group on his own initiative, I am an unofficial mentor in programming in c++ and discrete mathematics for the 1st year of the bachelor's degree (responsibilities include explaining incomprehensible material in c++ and checking homework in discrete mathematics), I love to work with interesting projects / tasks regardless of complexity, to be honest, if the project is not very interesting to me, then the efficiency drops a lot. I try not to give up and go forward all the time, I love difficulties and try to cope with everything.

Currently I am interested in Golang, improving my qualifications.

## Work Experience

### Unity Developer

June 2022 - Sep 2022

*startup*

Developed scripts in C#, worked with Git.

## Education

### Information Systems and Technologies

Sep 2021 - Oct 2025

*ITMO University*

I study at the Faculty of Information Technology and Programming, full-time education.

## Interesting Experience

### Open Olympiad ITMO ("Mathematics") 🔗

27 August 2020

### Olympiad Volunteer 🔗

Sep 2021 - Now

Volunteer for the RSOSH Olympiads in mathematics and programming. I am in the technical support of the ITMO Olympiads.
